Fontaine Octagonale

Item Number: fc-1119

This traditional French central garden fountain has been carved in limestone after an 17th Century original Haute Epoque Renaissance Louis XIII style. This Provencal limestone water feature is often seen throughout the charming villages in the South of France. The collecting water basin has a wide rim and a heavy octagonal beveled column topped with a sphere. Wear consistent with age and use. The fountain is featured with four typical Provencal spouts at an additional charge.
